

Renewable Energy Presentations

Available for Groups, Businesses, General Public

- ▶ *Would you like to get your employees or members up-to-speed on green Renewable Energy? What about tax credits and incentives?*
- ▶ *What is solar and wind power and how might it be utilized by your organization or customer base?*

Presentations and seminars can be tailored to your specific needs using hands-on demonstration equipment and hardware. Learn about the technologies that are proven and being used in applications all over the world. Emphasis is on Solar Electricity (photovoltaics), Small Wind Generation, and Solar Hot Water Heating. These three technologies are the most affordable, reliable, and available.

Who can benefit from these presentations?

- ▶ Colleges, Universities
- ▶ Utilities, Co-ops
- ▶ Ag / Extension Services
- ▶ Start-up Businesses and Investors
- ▶ Environmental Organizations
- ▶ Community and Church Groups
- ▶ State and Local Government
- ▶ Labor Trades: Electrician, Plumbers, Builders
- ▶ Realty Agencies
- ▶ Architectural Firms
- ▶ Tribal Communities
- ▶ Public Presentations Sponsored by Businesses
